

Course-Based PBL PROCESS MAP

Pre-Semester Activity Project Search

Clients are sought in the various disciplines for PBL.

- Web Based Application
- Networking
- Word of Mouth
- Economic Dev. Community

Week 1 Project Selection

Professors select projects based on class objectives and assign student teams to work with clients

Week 2 Client Presentation

Clients are invited to present their company and "project" to the class. They are then introduced to their team

Week 3-13 Student Activity

Students research, analyze and compile data in support of project. Work with client and professor

Week 14 Student Presentations

Students present their findings to their client, class and professors

Week 15 Student Evaluation

Students are evaluated on a variety of criteria including research, communication and presentations skills. Client feedback is a significant portion of evaluation
